MINDMAPPING SESSIONS

Students are introduced to the new tool of learning -mind mapping as effective too for memorising the facts and to have connectivity between ideas. A mind map is a visual thinking tool that helps structuring information, helping you to better analyze, comprehend, synthesize, recall and generate new ideas. Students are shown different samples of mind mapping and each student is asked to draw a mind mapping on the periodic properties of elements according to their own creativity and originality. Students were made to memorize things based on mind-mapping techniques.
