### Report

The Department of Mathematics at Mar Thoma College for Women organized a treasure hunt competition on March 14, 2022, as part of the Pi Day celebrations. It was a time bound activity and the group that would solve all the clues and collect the tokens first would be declared the winner. There were 3 rounds. 1st and 2nd round were mass elimination rounds and every clue led to the next round. The 3rd round was subdivided into 5 rounds. Various parts of the college premises were used to place the tokens with the help of the teachers, the animators and the volunteers. There was a lot of exhilaration as students ran from pillar to post scanning all the possible locations of where the tokens might be placed to pass on to the next round. Each clue was in the form of a riddle that hinted the location of the tokens and the students thoroughly savoured decoding the hints. There was display of tremendous team work and coordination among the group members. In the end, Daya Das, Nithuna Rajan & Shanhanas T S of II B.Sc. Physics won the prize.

The game was a great success in achieving its objective, and it was an excellent initiative by the Department of Mathematics to promote Pi Day and encourage students to develop an interest in mathematics.
