As a student,I would like to suggest about organizing a proper time schedule for completion of portions and letting students know an estimate of the time it'll take to complete the syllabus.Also organizing field trips and bringing other innovative and exciting learning methods like group discussions,conducting seminars related to topics etc

Increase funding

First of all we need a good wash room . And some teachers are teaching very well some are fast but it's ok.we can't able to use projectors in the proper way so kindly alot projectors in every classes so it's easy for us and also for our teachers too.

Make campus feel like a college campus.

Teachers have to slow the speed of speaking in English while teaching and Use simple language.They have to speak sometimes in malayalam. Reduce asking individual questions to students.Asking questions in common to all is better.They have to teach students about English vocabulary words and their meanings when they get time .It can improve students to write own words in exams.

Build positive relationship with students
